

*THE UNIVERSITY OF
NEW SOUTH WALES*

*SCHOOL OF MECHANICAL AND
MANUFACTURING ENGINEERING*

**Coming to UNSW as a First
Year Student in Mech Eng and
unsure of how to settle in?**

**We're running a peer mentor program for first year
students.**

What's a peer mentor program?

Experienced students passing on their knowledge and ideas to
new students.

Why should I join?

A peer mentor can support and guide you through the first
session at Uni, which is often very different to what you are
used to at school!

Who are the mentors?

Students just like you, who know all about the highs and lows
of starting Uni and balancing life's demands and can help you.

What do I have to do?

Look out for students with **PEER MENTOR** badges.
They will sign you up and make sure you are part of the
program. Watch out for an afternoon/evening student/staff
barbecue early in Session 1
